Before filling the above mentioned forms, it is recommended to read the Information note on the processing of personal data by INFN, provided pursuant to art. 13 of UE Regulation 2016/679, available at http://www.lnl.infn.it/en/access-to-lnl/

In case of exposed workers, authorized to carry out activity with ionizing radiation risk at LNL, their classification (category A or B) must be reported also in the RP Schedule for External Users. This form duly filled in and signed, the appropriate medical certification, the certification of successful training in radiation protection and, in case of category A, a copy of the personal Radiation Passbook must be provided to the Direction Service of LNL. The original Radiation Passbook should be handed to the Radiation Protection Service of LNL upon the arrival. External users are usually not allowed to enter classified areas at LNL. The workers who carry out activities with risk from ionizing radiation in the controlled or supervised areas of LNL and are classified as category A or B exposed workers, are defined as “External Worker” (Article 7, paragraph 1, point 80, Legislative Decree no. 101/2020).
